20-22 March, 2026

ENDO GYN

IAGE National Conference 2026

Organised by IAGE Bengal Chapter
in collaboration with The Bengal Obstetric & Gynaecological Society
Theme: Beyond Vision—the Future of MIGS

IAGE Awards for
the Best Video
on Laparoscopy,
Hysteroscopy & Robotic
Surgery - Junior & Senior
Categories each

CONFERENCE HIGHLIGHTS:

- Laparoscopic, Hysteroscopic & Robotic Surgery Workshop
- Oration
- Keynote Address
- Point of View-Chat
- Dedicated Yuva Session
- Free Communication (Poster/ Paper/Video)

Applied for
WBMC
Credit Hours

Secretariat

GC 209, Sector III, Salt Lake City Kolkata – 700106
Phone : 9674387711 | Email : iagebengal2025@gmail.com

Dear Colleagues and friends across India!

It gives me immense pleasure to welcome you all to the ENDOGYN 2026, a distinguished gathering celebrating the spirit of learning, innovation, and surgical excellence in Gynaec Endoscopy.

Having witnessed the remarkable evolution of this field over the years — from the early days of diagnostic laparoscopy to the sophisticated, technology-driven procedures we perform today — I am filled with pride at how far we have come!!

Yet, what inspires me most is the enthusiasm and curiosity of the IAGE members & new generation of surgeons stepping into this exciting era of minimally invasive gynaecology MIS.

This conference is designed not merely as an academic event, but as a bridge between experience and aspiration — where young minds & IAGE members can learn from masters, share their perspectives, and refine their craft.

Sessions are equipped with innovation, precision, and compassion.

As you participate in the sessions and live demonstrations, I encourage you to observe deeply, question thoughtfully, and above all, never stop learning.

Surgery is a lifelong pursuit of perfection — and every case, every challenge, is an opportunity to grow.

I extend my heartfelt congratulations to the organizing committee for curating a program that truly nurtures both knowledge and inspirations.

May this conference serve as a milestone in your journey towards excellence in women's health care.

All the best to the TEAM!

Happy Learning!

Dr Kalyan B Barmade

President, IAGE

Welcome Message from Incoming President DR SUDHA TANDON

My dear friends and colleagues,

It gives me immense pleasure to welcome each of you for “ENDO GYN 2026”- the ANNUAL IAGE hosted by the BENGAL CHAPTER of IAGE. The event is meticulously crafted and designed keeping each one of you in mind. The live operative workshop is on Friday 20th March 2026, where eminent national and international faculties will be operating and sharing their valuable insights. The following 2 days has a very exciting scientific program for Endoscopic surgeons of all age groups. Many innovative and new ideas are being planned for the event. I am sure you all would enjoy the ENDO GYN 2026. The inaugural function and installation of the new executive team is on 21st March 2026 where I will be installed as the President IAGE (26-27). I promise you all that it is going to be an unforgettable experience.

It has been my dream to plan a program keeping each Gynaec Endoscopic Surgeons in mind. This one is especially designed to give HANDS ON TRAINING to enhance your surgical skills- be it in Endometriosis, Malignancy, Fibroid, Hysterectomy or Operative Hysteroscopy. I am sure it will definitely excite you and help you immensely to make you confident- from simple to complex surgeries. Watch out for the details of this on the IAGE website.

And so do not forget.

YOU ALL HAVE DATE WITH ENDO GYN 2026, MARCH 20-22, Kolkata.

Warm regards,

Dr Sudha Tandon

MESSAGE FROM ORGANISING TEAM

Welcome to ENDOGYN 2026, Kolkata!

Respected Seniors, Colleagues, and Friends,

On behalf of the Bengal Chapter of IAGE and in collaboration with The Bengal Obstetric & Gynaecological Society, we are delighted to invite you to **ENDOGYN 2026**. Join us in the vibrant city of Kolkata from **March 20th to 22nd, 2026**, as we explore the future of Minimally Invasive Gynaecological Surgery (MIGS) under the theme: **“Beyond Vision - the Future of MIGS”**.

This conference is designed to be a hub of innovation, offering you the tools and insights needed to enhance your surgical skills and improve patient care. We have curated a program that balances high-level science with practical learning.

Scientific Highlights:

- **Live Endoscopy Workshops:** Real-time demonstrations by international experts from Bordeaux and leading national faculty.
- **Expert Keynotes & Debates:** Insightful presentations and “Point of View” chats tackling the most relevant topics in endoscopy today.
- **Research & Competitions:** Showcase your work through poster sessions, free papers, and competitive video presentations with lucrative prizes.
- **Yuva Sessions:** A dedicated space for young surgeons focusing on disease-centered and procedure-specific problem-solving.
- **Tech Exhibition:** Explore the latest medical technologies and surgical tools.

Experience Kolkata

Beyond the lecture halls, Kolkata awaits you with its legendary hospitality, rich history, and world-famous cuisine. The tolerant tropical March weather is ideal for planned post-congress tours and city exploration.

We look forward to welcoming you to this exceptional gathering. Together, let's advance the field of MIGS and make this an unforgettable experience for everyone.

See you in Kolkata!

Warm regards,

The Organising Team

Conference Highlights

- Live Surgery Workshop- Laparoscopic, Robotic & Hysteroscopic
- Conference Orations
- Free paper and poster presentation- competitive
- Impact of Eagle Project- free communication
- Competitive Video presentation- IAGE Awards in Senior & Junior Categories
- Point of View (POV) chats
- Dedicated Yuva Sessions
- Spotlight: Special Groups & Focused Problem Solving
- Video assisted surgical training module

Competitive Video Presentation – IAGE Awards

Enter the IAGE Awards Video Competition! We invite you to submit high-resolution videos showcasing **innovative concepts** or **rare cases**.

Prizes & Categories:

Junior: Under 45 years

Senior: 45 years and above

WHAT WE ARE LOOKING FOR: Submissions will be judged on clarity, creativity, presentation style, and the uniqueness of the clinical case. Please ensure your recording follows our official formatting guidelines for the best chance to win lucrative prizes.

Yuva Sessions

Welcome to the YUVA Session—a dedicated breakaway forum *crafted especially for young postgraduates and early-career endoscopic surgeons* who stand at the exciting dawn of their minimally invasive journey. Laparoscopy, hysteroscopy, and robotic surgery are transformative tools in modern gynaecological practice, but each comes with a steep learning curve. From choosing the right case, to executing each step with precision, to ensuring safe postoperative care—presents its own challenges.

This session is designed to address exactly those concerns. Learning is not just going to be academic—

Point of View (POV) Chat Session

Welcome to the *Point of View (POV)* Chat Session—a dynamic and thought-provoking format designed to spark meaningful dialogue around key surgical practices. In this session, the moderator will present a clear, debate-style statement on a specific procedure—i.e., “*Bilateral transient uterine clipping is essential to limit blood loss during myomectomy.*” Like any strong motion, it naturally invites differing viewpoints.

A panel of experienced experts will then share their perspectives, presenting arguments and counter-arguments, either in support of or against the statement. What sets this discussion apart is its grounding not only in scientific evidence but also in the rich, practical wisdom that comes from years of surgical experience. The aim is to go beyond guidelines and explore real-world nuances, challenges, and decision-making processes.

We hope these conversation encourage out-of-the-box thinking, broaden your clinical perspective, and help you form your own informed point of view.

it will be practical, and joyful. *Our aim is to bridge the gap between theoretical knowledge and hands-on clinical training.*

The faculty selected for this exposition are not only leaders in their sub-specialties but also passionate mentors who truly understand the needs, and aspirations of young surgeons. Their experience, coupled with their empathy for teaching, will make this an exceptional platform for *skill-building* and *confidence-building*.

We hope this session will empower you, inspire you, and elevate your endoscopic journey.

Spotlight on Special Group

Welcome to the *Spotlight on Special Group* session, a focused academic forum designed for today's era of highly specialised, domain-oriented practice. As clinical expertise becomes increasingly organ-specific and disease-centred, this session aims to dive deep into a single disease condition and explore it with clarity and practical relevance.

Each edition of this spotlight series takes one topic—such as **Uterine Fibroids**—and examines it from every essential angle. Participants will be guided through the most *effective diagnostic strategies, comparing imaging modalities* and understanding when one tool offers superior mapping over another. The discussions will highlight how *accurate preoperative evaluation directly enhances surgical planning and outcomes*. In addition, we will cover case selection, helping clinicians identify when surgery is truly indicated. Equally important, we will explore non-surgical alternatives including medical therapy, ablation techniques, and emerging evidence-based options.

This is a very focussed learning experience tailored to refine decision-making and elevate competence in clinical management—ensuring you leave with practical insights for better patient care.

Spotlight on Focused Problem Solving

Welcome to the *Spotlight on Focused Problem Solving* session—an intensive learning forum designed to address the most challenging problem zones encountered during specific surgical procedures. These are the moments in the OR that truly test a surgeon's judgement, precision, and confidence.

In this session, we focus in on such high-risk scenarios. For example, during a **Total Laparoscopic Hysterectomy in a patient with previous Caesarean section**, dense vesico-uterine adhesions can make bladder dissection particularly demanding. Through detailed video demonstrations, our experts will walk

you step-by-step make you walk through optimal techniques, anatomical cues, safe dissection planes, and practical strategies to avoid complications. In the event of an '*inadvertent cystostomy*', further management will be demonstrated and discussed.

What makes this format unique is its *interactive learning environment*. You will have ample opportunity to ask questions, discuss nuances, and clarify doubts directly with the faculty who have mastered these difficult situations.

We hope this will *enrich your surgical insight* and equip you with *skills you can translate into safer, more confident operative practice*.

Video Assisted Surgical Training (VAST)

Welcome to the *Video Assisted Surgical Training (VAST)* session—an innovative teaching format designed to overcome the limitations often faced in live or near-live surgical workshops. While such workshops showcase a wide variety of cases performed by Masters, uninterrupted viewing is not always possible. Some procedures may be too complex for young learners to grasp in real time, and often, the opportunity to pause, ask questions, or clarify doubts is limited.

VAST was created precisely to fill this gap. In these sessions, key procedures are broken down into simplified, sequential steps and demonstrated through curated video presentations. For example, a myomectomy, is deconstructed into clear, manageable stages, allowing participants to understand each step with complete clarity.

Originally introduced during the COVID era through IAGE Bengal Chapter webinars, VAST quickly gained popularity for its *clarity, structured, and learner-friendly approach*.

We hope this session offers you a comprehensive, and deeply enriching learning experience.

Workshop Proposed Case List

1. Total laparoscopic hysterectomy (TLH)
2. Laparoscopic myomectomy
3. Laparoscopic adnexal surgery: Ovarian cystectomy
4. Laparoscopic Surgery in advanced endometriosis
5. Laparoscopic diaphragmatic endometriosis excision (selected)
6. Laparoscopic Pelvic Peritonectomy (fertility-focused, microsurgical principles) / USG guided Micro-ablation of Adenomyosis/adenomyoma / ovarian rejuvenation concepts
7. Caesarean scar niche/defect repair (Isthmocele repair)
8. Hysteroscopic polypectomy
9. Hysteroscopic repair of niche / isthmocele
10. Hysteroscopic incision of Septum
11. Hysteroscopic myomectomy
12. Intrauterine adhesiolysis (Asherman)
13. Laparoscopic Burch Colpo suspension
14. Laparoscopic repair of vault prolapse ± paravaginal defect – Pectopexy
15. Robotic endometriosis excision (DIE): ureterolysis, with dissection of retro-peritoneal spaces (anatomy teaching)
16. Robotic Sacro colpopexy (vault prolapse)
17. Robotic Radical Hysterectomy with Sentinel LN Sampling for Endometrial cancer

- Uro-gynaecology
- Robotic Surgery
- Miscellaneous in MIGS

Important Dates

Submissions closes : February 20, 2026

Free Communications : Paper – Posters – Videos

SUBMISSION CHECKLIST

Before you send or upload, ensure you meet these core criteria:

- **Registration:** You must be a registered delegate for the conference.
- **Authorship:** Note that while you may have co-authors, only the **presenting author's name** will be included in the final program.
- **Format:** Choose between a **Research Paper** or a **Case Series** format.

ABSTRACT STRUCTURE GUIDE

Section	Research Paper (Original Study)	Case Series
Header 1	Aims: What were you trying to prove?	Introduction: Background of the condition.
Header 2	Materials & Methods: How did you do it?	Case Particulars: Details of the patients/cases.
Header 3	Results & Analysis: What did the data show?	Discussions: How these cases fit into current logic.
Header 4	Conclusion: The “take-home” message.	Conclusion: Summary of findings/lessons learned.

IMPORTANT SUBMISSION DETAILS

- **Methods of Submission: Online:** Via the official conference website.
Email: Send to endogyn2026@gmail.com.
- **Next Steps:** If your abstract is accepted, keep an eye on your inbox. You will receive a separate email containing technical instructions for your slides, poster dimensions, or video formats.
- **Be Concise:** a word limit (250–300 words) — MS Word Format; Times New Roman / Arial Font; Size 12; Line Spacing 1.5. Keep your sentences direct.
- **Proof read:** Since these are “Free Communications,” clarity is key to catching the reviewers’ attention.
- **Focus on the conclusion:** State how your work is relevant to the field of gynaecological endoscopy.

FREE COMMUNICATIONS - POSTERS

Technical Specifications for E-Posters

While detailed instructions follow acceptance, standard E-posters usually require:

- Abstract should be submitted in MS Word Format; Times New Roman / Arial Font; Size 12; Line Spacing 1.5.
- **File Format:**
 1. Is it saved in high resolution PDF or JPEG
 2. Font : Times New Roman
 3. Size : 12
 4. Line spacing: 1.5

VISUAL & ETHICAL STANDARDS

- **Patient Anonymity:** Are all patient names, hospital IDs, and faces (in photos) blurred or removed?
- **Image Quality:** Are clinical photos or surgical stills clear and high-definition?
- **Graphs/Tables:** Are they clearly labelled with units and legends?
- **Conflict of Interest:** Have you included a small disclosure statement if applicable?

FINAL SUBMISSION STEPS

- **File Naming:** Is the file named correctly? (e.g., Abstract_EPoster_YourName.pdf).
- **Email Check:** If sending to endogyn2026@gmail.com, is the Subject Line clear? (e.g., “Abstract Submission: E-Poster - [Your Name]”).
- **Confirmation:** Did you receive an automated or manual acknowledgment of receipt?

Note: Many abstracts are rejected simply because the author forgot to register for the conference or failed to follow the header requirements (Aims, Methods, etc.). Double-check that you haven't swapped “Case Series” headers for “Research” headers.

VIDEO PRESENTATION

VICTORIA MEMORIAL

The Victoria Memorial is a large marble building, which is considered to be the pride of Kolkata. Built between 1906 and 1921, it is dedicated to the memory of Queen Victoria and is now a museum. The garden is open from 5:30 am to 6:15 pm on all days. The Victoria Memorial Hall Museum or Gallery is open from 10am to 5pm from Tuesday to Sunday. On Mondays the Gallery is closed.

HOWRAH BRIDGE OR THE RABINDRA SETU

Located over the Hooghly river in West Bengal, Howrah Bridge or the Rabindra Setu is the main connection between Howrah and Kolkata. It is a cantilever bridge and is regarded as one of the busiest ones among them.

BELUR MATH

Belur Mutt is the headquarters of the Ramakrishna Math and Mission, founded by Swami Vivekananda. Situated on the west bank of Hooghly River, the temple is prominent for its architecture that embraces Hindu, Christian and Islamic styles and stands as an icon of unity of all religions.

JORASANKO THAKUR BARI

Currently located on the Rabindra Bharati University campus in Jorasanko, Jorasanko Thakur Bari is the house in which the first non-European Nobel laureate and poet, Rabindranath Tagore was born.

KALIGHAT TEMPLE

Kalighat Temple, one of the 51 Shakti Sthals of India, is one of the most visited Kali temples in India. The spot is where the toes of Sati's right foot fell during Shiva's Rudra Taandav naach.

ECO TOURISM PARK

Eco Tourism Park is an expansive urban park designed to promote eco tourism in the city. It is the biggest urban park in India and occupies over 475 acres of land. The beauty of the location increases ten folds because of a water body that surrounds the park and forms an island in the middle.

MARBLE PALACE

The Marble palace near the Chorbagan in North Kolkata built in 1835 by Rajendra Mallick is famed for its art collection of masterpieces by Reuben and paintings by various renowned international artists such as Reynolds, Van Gogh and Rembrandt.

MOTHER TERESA TOMB

This is the place where the Tomb of Mother Teresa is present. It is maintained by her missionaries and followers who have continued to promote her legacy.

DAKSHINESWAR TEMPLE

Flanked by River Hooghly on the Eastern bank, Dakshineswar Kali is a revered Hindu navratna temple which is presided by Bhavatarini - a form of Goddess Kali. Built in Rani Rashmoni in 1855 who was a devotee of Goddess Kali, the Bhavatarini form means 'she, who liberates her devotees from the ocean of existence.'
